

Information Science Results Management System

[Final class lists](#)

Generate a final class list for a paper. This shows only those students who were still enrolled in the paper when it ended, and can thus be used to double-check your own student lists. Class lists may be downloaded as a tab-delimited text file for easy import into whatever marks management software you use.

[Histograms](#)

Generate a histogram for a paper that has had results recorded. These are available in a variety of image formats and may be downloaded for inclusion in examiner's reports.

[Paper statistics](#)

Generate a report of various statistics for a paper, suitable for use at the examiners' meeting. You can also download a Word or LaTeX template document that has most of the relevant information already filled in.

[Levels of Award](#)

Generate a report of overall results for Postgraduate Diploma, Honours, and Master's students.

[FEO Students](#)

Generate a list of Final Examination Only (FEO) enrolments for a given year.

[Useful files](#)

Templates, examples, etc.

[Documentation](#)

Documentation, help, limitations, warnings, etc.
